## Experience

- |  |                                |                        |                          |
|--|--------------------------------|------------------------|--------------------------|
| <b>AI Researcher Visitor</b>   | <b>Cambridge Uni (CaMLSys)</b> | <i>Cambridge, UK</i>   | <b>09/2025 – 09/2025</b> |
| <ul style="list-style-type: none"><li>Academic research in <a href="#">agentic red teaming</a>, targeting <a href="#">LLMs</a>, focused on identifying vulnerabilities and evaluating model robustness, collaborating with Nic Lane's group (CaMLSys Lab, University of Cambridge); collaboration ongoing.</li></ul>   |                                |                        |                          |
| <b>AI Researcher Engineer Visitor</b>  | <b>IBM</b>                     | <i>Dublin, Ireland</i> | <b>05/2025 – 08/2025</b> |
| <ul style="list-style-type: none"><li>Contributed to academic research and the development of a <a href="#">red teaming</a> system targeting <a href="#">LLMs</a>, focusing on identifying vulnerabilities and evaluating model robustness); collaboration ongoing.</li></ul>  |                                |                        |                          |
| <b>AI   Cybersecurity Researcher</b>   | <b>Universidad de Murcia</b>   | <i>Murcia, Spain</i>   | <b>10/2024 - Current</b> |
| <ul style="list-style-type: none"><li>AI Researcher Engineer focused on <a href="#">Federated Learning</a> and <a href="#">Cybersecurity</a> applied to IoT, leveraging <a href="#">Large Language Models</a> and advanced <a href="#">AI</a> techniques for vulnerability identification and <a href="#">penetration testing</a>.</li><li>Contributed to <a href="#">academic research</a> and the development of secure, privacy-preserving machine learning systems in collaboration with interdisciplinary teams, under the supervision of Prof. Antonio Skármeta and Prof. José Luis Hernández Ramos.</li></ul>   |                                |                        |                          |
| <b>Specialist Software Engineer</b>  | <b>Vodafone</b>                | <i>Málaga, Spain</i>   | <b>09/2023 – 10/2024</b> |
| <ul style="list-style-type: none"><li>Developed microservices using <a href="#">Java Spring Boot</a>, <a href="#">MongoDB</a>, <a href="#">Apache Kafka</a> and <a href="#">Docker</a>, while adhering to <a href="#">agile</a> methodologies and industry best practices while deploying new features into production.</li><li>Led the technical <a href="#">hiring</a> process for new graduate engineers, including designing technical scenarios and interview questions.</li><li><a href="#">Mentored</a> our internship engineers to create a final project, simplify the DB budget management process across portfolios using power app while building a <a href="#">chatbot</a> as an extension.</li><li>Proposed and designed using <a href="#">figma</a> a frontend application to track our service orders and help to clarify our demos.</li></ul>   |                                |                        |                          |
| <b>Deep Learning Engineer Lead</b>   | <b>Bemyvega</b>                | <i>Murcia, Spain</i>   | <b>12/2022 - 05/2023</b> |
| <ul style="list-style-type: none"><li>Led the <a href="#">AI</a> team in developing <a href="#">real-time transcription</a> systems using <a href="#">NLP</a> and <a href="#">deep learning</a> techniques, including <a href="#">LLMs</a>. Analyzed and selected appropriate models for each use case, resulting in high-quality transcriptions.</li></ul>  |                                |                        |                          |
| <b>AI Software Engineer   CEO CO-Founder</b>   | <b>MiSintaxis</b>              | <i>Murcia, Spain</i>   | <b>09/2019 - 09/2023</b> |
| <ul style="list-style-type: none"><li>Led the creation, design, <a href="#">development</a> and <a href="#">strategy</a> of the <a href="#">number one app</a> in the world of syntax teaching, with more than <a href="#">85,000 downloads</a> all around the world</li><li>Applied <a href="#">Natural Language Processing</a> techniques for Spanish language processing. Conducted <a href="#">fine-tuning</a> of the Bloom and GPT2 model on the Ancora corpus, resulting in impressive F1 metrics for Spanish <a href="#">constituency parsing</a>. Using <a href="#">Hugging Face</a>, <a href="#">PyTorch</a>, <a href="#">Python</a> and <a href="#">AWS</a> to deploy it. Design and implement an architecture based on <a href="#">AWS</a> services.</li><li>Designed and implemented scalable <a href="#">APIs</a> and background workers to develop this mobile app.</li><li>Used android studio with <a href="#">Java</a> and <a href="#">XML</a> at first and then led the migration to flutter in order to create a multiplatform app.</li><li><a href="#">Recruited</a> 1 designer, 3 software engineers.</li><li>Used the <a href="#">lean</a> methodology to create a minimum viable product and implemented the <a href="#">agile</a> methodology with SCRUM using Jira.</li><li>Managed the business side, including legal issues, branding, recruiting, fundraising, external communications and networking.</li></ul> |                                |                        |                          |

## Projects

- Movie Recommendation System:** Created with my colleague a hybrid system using [content-based](#), [collaborative-based](#) and [Knowledge-based filtering](#) using [Java](#) ([Github Link](#)) (2/2022)
- TURBINE:** Before going to college, I created a 3D mobile video game for [Android](#) using [Unity 3D](#) with [C#](#) and [Blender](#). The game was available in the play store for free. Link to [YouTube Gameplay](#) (07/2018)
- ANALIZANDO:** Created a syntax teaching app in high school at the age of 15 in order to help students prepare for exams. Used [Android Studio](#) and developed it with [Java](#) and [XML](#). The app was available in the Play Store, and it had more than 30,000 downloads (09/2016)

## Education

- |  |                                |                        |                          |
|--|--------------------------------|------------------------|--------------------------|
| <b>Bachelor of Computer Engineering with Honors</b>  | <b>Universidad de Murcia</b>   | <i>Murcia, Spain</i>   | <b>09/2019 - 07/2023</b> |
| <ul style="list-style-type: none"><li>Major in Computer Engineering. GPA of 8.6, this is in the top 1% of the university.</li></ul>                    |                                |                        |                          |
| <b>Erasmus-Computer Engineering</b>  | <b>Politechnika Wroclawska</b> | <i>Wroclaw, Poland</i> | <b>09/2021 - 02/2022</b> |
| <ul style="list-style-type: none"><li>Major in Computer Engineering. Studied abroad in Poland for one semester. All classes were in English.</li></ul> |                                |                        |                          |

## Research

## Skills

---

- Natural Language Processing | Deep Learning | Hugging Face | PyTorch | Python
- Java Spring Boot | Docker | JavaScript | HTML | CSS | C++ | C | MongoDB | MySQL | AWS | Git | SCRUM | Unit Testing | Cucumber | BDD
- Management | Microservices | Artificial Intelligence | Full-Stack
- English, Spanish, French – *All professional proficiency or above*

## Awards

---

- **Extraordinary Final Degree Project Award:** Receive recognition for my final project. Applied [Natural Language Processing](#) techniques for Spanish language processing. Conducted [fine-tuning](#) of different [LLMs](#). Design and implement an architecture based on [AWS](#) services.
- **Extraordinary High School Award:** Received a recognition for passing every subject of my final year of [high school with Honors](#)
- **First place in** multiple [startup competitions](#) and [regional contests](#) with my startup, [MiSintaxis](#).
- **Awarded scholarships** to take courses in [business administration](#) and [management](#).

## Others

---

- [Volunteered](#) as a mentor for international students in my city.
- Performed Tech [Talks](#) in different universities and in different high schools.
